

# LOYOLA

## third world studies

ASIA • AFRICA • LATIN AMERICA

### PROGRAMME ...

The Third World Studies Programme at Loyola College develops and integrates undergraduate study in Asia, Africa and Latin America. Courses relating to these areas are offered in History, Political Science, Sociology, Economics and Philosophy.

The programme does not replace the normal disciplinary orientation of Loyola College but rather permits the development of an interdisciplinary approach to the study of Asia, Africa and Latin America within the framework of normal departmental requirements for graduation. Thus students formally enrolled in the Third World Studies Programme will major or honour in one of its constituent disciplines but will, upon graduation, having met all university and departmental requirements, be awarded a certificate from the Third World Studies Programme.

### RESOURCES ...

The resources of the Third World Studies Programme include a wide range of teaching personnel most of whom have lived for extended periods in Africa, Asia or Latin America. The Georges P. Vanier Library at Loyola contains one of the most authoritative collections in Canada of books, newspapers and documents relating to Africa.

### ADMISSION ...

The programme is designed for the purpose of encouraging, among students at Loyola, an increasing awareness and understanding of those areas of the world normally neglected by the conventional educational processes and media in Canada. It is intended to produce well-informed laymen - teachers, businessmen, journalists and the like, rather than specialists. It is therefore the intention of the programme to attract as many students as possible. Limitation of numbers will be imposed on <sup>any</sup> according to normal departmental standards.

### COURSE OFFERINGS AND REQUIREMENTS ...

Students enrolled in the programme will be required to take the introductory course in Third World Studies as well as three other courses selected from the list below and a final seminar in Third World Studies. This seminar will not be offered in the first year of the programme (1973-74).
